

dHealth

International Annual Conference on Health Informatics meets Digital Health

Vienna, Austria

www.dHealth.at

Partner Information

The dHealth conference is the most important Austrian conference on healthcare IT. It provides a stage for innovative minds in the healthcare industry to discuss the goals they have achieved and those that still lie ahead.

Every year, the question arises anew: What has changed and where can this digital path lead in the healthcare sector? What was the significance of digitalization in the pandemic?

Decision-makers and experts from politics, business, physician networks, healthcare organizations, nursing and medical informatics will meet. In this environment of science, research and industry we create an opportunity for you to present your ideas and implemented projects and/or products.

Be there, talk to us and show your solution strategies to the most important players in Austria and in Europe. Take advantage of the diversity of our partner packages to find the right stage for you.

We will be happy to support you in planning your appearance as a partner at dHealth.

Our Audience

- Representatives from politics and authorities, health care payers, association representatives
- Decision-makers from organizations in the stationary and ambulatory sector, physicians, pharmacists, laboratory representatives, payers, physician networks, networks of authorities and associations
- Hospital executives, CIOs of stationary facilities, CFOs, business analysts of hospitals, IT managers, project managers, users
- Physicians, nurses, medical informatics specialists and other clinical informatics professionals from all fields, students

Good reasons for your dHealth partnership

Providers and users in a dialogue

Enter into a solution-oriented dialog with decision-makers and learn about the requirements of today's IT systems.

Show presence – establish your networks

Use the unique networking concept to showcase your company and present yourself to the most important key players in the industry.

International Scope

Make your solutions and ideas accessible to the European community via the dHealth network.
